Office Order

Sub: Systemic improvements in tendering - Cases of foreclosing and retendering.

It has been observed that in one of the work for hiring of equipment for excavation of OB and extraction of coal work was foreclosed in one of the subsidiary of CIL on account of inability of the contractor to continue the work without levying any penalty. However, work was retendered and the same contractor was awarded the work at higher prices.

Therefore in all cases of re-tender, price reasonability and situations such “same firm-higher price” have to be analyzed in depth, deliberated in detail and recorded as such facilitating an appropriate decision.

The above systemic measure is being circulated for further needful and implementation.

This issues with the approval of competent authority.
